REPARATOR CAPILLI.

For restoring hair upon bald heads (from whatever came it may have fallen out) and forcing a growth of hair upon the face, it has no equal. It will force the beart to grow upon the sensitiest face in from two to eight weeks, or hair upon that heads in from two to three months. A few ignorant practitioners have asserted than there is nothing that will force or hasten the growth of the hair or heart. Their assertions are raise, as thousands of living witnesses (from their own experience) can hear witness. But many will say, how are we to distinguish the gent her from the spurious? A cortainly is inflicitly, as nine-tents of the hair and beard are entirely worthines, and you may have already thrown away large amounts in their purchase. To such we would say, try the Reparator cappill; it will cost you nothing unless it ally comes up to our representations. If your breggist dues not keep it, send us one dollar and we will forward it, postpaid, together with a receipt for the money, which will be returned you on spoileation, providing entire satisfaction is not given.
